

Finally, on a personal level, Hillary and I value Dick and Jane's friendship and look forward to Dick's continued leadership.

**Statement on People Magazine's
Decision To Print a Cover Story
Featuring Chelsea Clinton**

February 3, 1999

We deeply regret and are profoundly saddened by the decision of People magazine to print a cover story featuring our daughter, Chelsea. For over 6 years, the media has understood and respected the unique situation facing Chelsea as she grows up in the spot light focused on her parents. Other than at public situations where she is an integral part of our family, Chelsea has not taken on a public role. We have been very grateful for the media's restraint in allowing Chelsea the privacy that any young person needs and deserves.

Unfortunately, despite personal appeals with respect to her privacy and her security from her parents, People magazine has chosen to run the story. We can only hope that the media will continue its policy of restraint with respect to our daughter.

NOTE: This statement was released by the Office of the Press Secretary as a statement by the President and the First Lady.

**Statement on Action Against
Invasive Species**

February 3, 1999

Today I am signing an Executive order directing Federal agencies to expand and coordinate their efforts to combat a serious environmental threat: the introduction and spread of plants and animals not native to the United States.

Many Americans are all too familiar with gypsy moths and other non-native insects that devour our gardens and trees. Few realize, however, that countless other non-native plants and animals are upsetting nature's balance, squeezing out native species, causing severe economic damage, and transforming our landscape. Those affected range from western ranchers plagued by a weed called

leafy spurge to Chicago homeowners whose stately maple trees have fallen prey to the Asian long-horned beetle. Some experts estimate the cost to the American economy to be as high as \$123 billion a year.

The Executive order mobilizes the Federal Government to defend against these aggressive predators and pests. Led by the Departments of the Interior, Agriculture, and Commerce, Federal agencies will work together to prevent the introduction of non-native species and control those already here. My fiscal year 2000 budget proposes an additional \$29 million to support these efforts, and I urge Congress to join us in protecting our economy and our natural heritage against the threat of non-native species.

**Executive Order 13112—Invasive
Species**

February 3, 1999

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*) Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990, as amended (16 U.S.C. 4701 *et seq.*), Lacey Act, as amended (18 U.S.C. 42), Federal Plant Pest Act (7 U.S.C. 150aa *et seq.*), Federal Noxious Weed Act of 1974, as amended (7 U.S.C. 2801 *et seq.*), Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and other pertinent statutes, to prevent the introduction of invasive species and provide for their control and to minimize the economic, ecological, and human health impacts that invasive species cause, it is ordered as follows:

Section 1. Definitions.

(a) "Alien species" means, with respect to a particular ecosystem, any species, including its seeds, eggs, spores, or other biological material capable of propagating that species, that is not native to that ecosystem.

(b) "Control" means, as appropriate, eradicating, suppressing, reducing, or managing invasive species populations, preventing spread of invasive species from areas where they are present, and taking steps such as restoration of native species and habitats to
